How to identify your spa filter cartridge

1 All genuine Darlly filters have the part number printed on the end cap (eg "60401")
Also the label which comes on the wrapper will have all details. (Please keep this for next time)
Pleatco and Unicl will also sometimes have the part number on the end cap and this brochure
as well as our website at www.darllyeurope.com contains all of their part numbers.

2 However, should you be without any part number simply follow our 'Find a Filter' guide
below using various measurements and brand identities.
Failing all of this simply call us on +44 (0)1952 - 580500 we would be delighted to help you.

A Measure the outer diameter of the filter
measuring from the left edge of the filter to the right edge .

C

Measure the inside diameter of
the opening of the cartridge or
the inside edges of the thread.
Holes are normally 50mm (2"),
75mm (3") or 100mm (4")
Threads are normally
38mm (1 1/2") or
50mm (2")

B

Measure the overall
length of the cartridge
(Do not include
handles or threads)

A more accurate
measurement is
made by measuring
through the center of
the cartridge when
possible

Fine Thread (MPT) has
from 6 - 8 fine twists
whereas
Coarse Thread (SAE)
will have as little as only
3 thicker threads.

Will another Filter Fit my Spa?
the answer to this is surprisingly
YES.

Especially if it has a handle.
A handle filter is normally always
with a threaded bottom and so
long as the thread is
the same, the diameter
of the filter is similar
and the sq ft of filtration
similar then a longer or
shorter filter will suffice
so long as the filter does
not come above the
water line thus allowing
in air.

**Filter measurements may vary. Always allow a
variance of +/- 5mm**

Darilly The Brand

Darilly are one of the biggest manufactures of replacement filter cartridges in the world. Our customers include some of the world's largest spa manufacturers.

Our filters are widely used in Biopharmaceuticals, Microelectronics, Medical, Food and Beverage, Petrochemical, Automotive, Power Generation and Drinking Water treatments. Our technical specialists undertake significant research and development to improve the effectiveness of filters in all the business sectors that we are involved in. We apply this learning and expertise to advance our Pool and Spa filters which are accepted and appraised globally as being of superior quality.

To this end we have recently moved in to a purpose built 40,000 sqm State-of-the-Art factory which will enhance our R&D, our production capacity and most importantly our standard of quality. Darilly are the only cartridge filter manufacturer that offer a One Year Gurantee.

What our customers say:

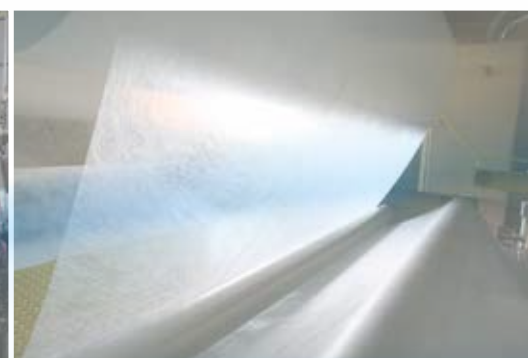

Service - "Service levels are unbeatable, always highly professional and willing to help be it finding a filter or getting a new filter made. We receive instantaneous response to our orders and enquiry's. Their technical support is also freely given. I can't recommend them highly enough."

Quality - "The Darilly Europe product guarantee gives us confidence in their filters. In over 5 years of selling Darilly filters we haven't had one single filter returned. Their filters are of unrivalled quality our customers love them."

Brand Leader - "In the past four years we are aware and appreciate that Darilly Europe has taken the Darilly brand from nowhere to number one in Europe, this has been a magnificent achievement and we are so proud to share in their success."

Availability - "Darilly Europe make it easy for us, their stock levels are excellent, next day delivery is always an option whenever needed or delivery direct to our customer if required. Ordering cartons, pallets or even containers is never a problem."

Price - "For such a superior quality product the prices are very competitive and Darilly Europe's discount levels are so reasonable and very flexible."

To Fit Some Of The Following Hot Tubs:						
Sundance Spas: 6540-488, 6540-501, 6540-501, 6540-507 (new Microclean 2) This filter replaces both the standard filter cartridge & 5" disposable micro-clean element of a sundance Filter. This is far more cost effectibe option since it avoids having to replace the micro-clean element every month. There is a bulkhead within the core for the seperate circulation pump.

To Fit Some Of The Following Hot Tubs:			

Fits many Sundance Spas 850 Series and 780 Series Spas available in the UK in conjunction with the MicroClean 1 disposable filter element SC721.
Sundance Spas part no. 6540-501

Item	SC723	Length cm	34
Darly	PP1271	Length inch	13.4
Unicel	C-4326	Dia cm	13
Pleatco	disposable C4950	Dia inch	5.1
Filter Area	--	Top	5cm Hole
Units/Carton	9	Bottom	5cm Hole
To Fit Some Of The Following Hot Tubs:			

This is the disposable replacement for C-4950 (SC706) & C-4326 (SC704)
It cannot be cleaned or washed but will probably last in the region of 6 months
However, this filter media gives a filtration of 1 micron which is the equivalent of drinking water.
So it gives cleaner, purer water but does not last so long.

To Fit Some Of The Following Hot Tubs:			

NO MORE SCALE - NO MORE HARD WATER

Hard water is NOT good for your spa or hot tub. It can cause cloudy "gassy" water, it will certainly block your filter with limescale, you can spend more than £150 over 2 years unnecessarily in chemicals and it will invariably damage/limit the efficiency of your heater.

Fill your spa using the Darby Pure-Stream De-Ioniser and you will be rid of all these problems. This is NOT the same as using a water softener - this device (which lasts for upto 6 FILLS* about 2 years) de-ionises the calcium thus rendering it harmless to your system.

MORE TIME BETWEEN CLEANINGS AND HAPPIER CUSTOMERS

Pool and Spa owners worldwide and technicians alike rely on cartridges made with REEMAY Filtration Fabric, with its unique trilobal fibres to perform consistently over time and require less maintenance.

Efficiency

Uniformity and high-performance trilobal fibres ensure dependable filtration over time for clean, healthy sparkling water.

Time between Cleaning

The thickness and trilobal fibre shape packs in more dirt than the competition, which means less filter cleaning for customers.

Durability and Cleaning

With superior thickness and stiffness REEMAY fabric stands strong under pressure and holds up to the rigors of multiple cleanings.

Microban Anti-microbial Protection

REEMAY fabric is the ONLY pool and spa filtration material available with genuine MICROBAN protection embedded into the fabric so that it never washes away, offering exceptional bacteria-fighting protection against pathogens, stains and odours.

Accessories

Pre-Stream

Removes common water contaminants before they enter the Spa

The Darly Pre-Stream pre-filter is 90% efficient at removing contaminants including: solids, dirt sediments, rust, iron, copper and other hard mineral deposits that could scratch your spa's surface and reduces staining.

Attach the Pre-Stream to the end of a garden hose and begin to fill, it is as simple as that.

By reducing the amount of contaminants in the water before they enter the pool or spa the amount of chemicals needed, to create the perfect water conditions, are also reduced.

Pre-Stream also prolongs the life of your filter cartridge. By reducing hard mineral deposits from the water it is easier to chemically balance the water from the start, and fewer chemicals are required.

Darly Duck

People will say we are Quackers, but we are delighted to introduce you to Darly Duck.

Darly Duck, or DD as he likes to be called, is an incredibly talented fellow, he prevents scum lines from forming, which eliminates the need to scrub the acrylic shell of the spa. He reduces contaminants from clogging your filters and if that was not enough he absorbs 40 times his own weight in oils, lotions and cosmetics.

Darly Duck likes to float freely and clean up, when one side is dirty, turn him over and he will continue his mission. Every now and again.

Darly Duck likes to be rinsed so don't get in a 'flap' buy Darly Duck now and let him do the dirty work.

Cyclone Filter Cleaner

'Brush and Flush'

The Cyclone cleans deeper, in less time and it prolongs the life of the filter cartridge by leaving the treated filter cartridge restored to its previous condition.

Pure Stream

Eliminates calcium from tap water!

No More Scale - No More Hard Water in the Spa

Using the Pure-Stream is like filling your Hot Tub with pure natural bottled water!

Darly's Pure-Stream uses ion-exchange resins within the filter to transform calcium and magnesium into sodium by means of ion exchange. Following this process, your water has the same quality as mineral water.

This process removes the calcium and magnesium from the water source leaving the limescale in the filtered water suspended where it cannot cling to equipment or surfaces and producing soft water.

This is highly beneficial because lime scale deposits are very damaging to the surface and to the internal workings of the Spa and often uncomfortable for the bather.

This reusable filter retains its effectiveness when refreshed by adding a saline solution into the cartridge after use.

When refreshed the Pure-Stream should be effective for 6-8 fills

SILVER⁺STREAM

Silver Ion Technology

- ✓ **Anti Microbial Filter Media**
- ✓ **Cleaner Filter**
- ✓ **Increased filter Life**
- ✓ **Increased Jet Power**
